Real Dark Chocolate. Real Delicious®

For real health benefits, and real taste, you have one real option: REAL Dark Chocolate.

While many protein bars have the word “chocolate” on their labels, their chocolate is far from the real deal. Instead, those bars are coated with imitation chocolate, made from palm oil infused with chocolate flavoring. One bite and you’ll taste a waxy, too-sweet layer of “chocolate” that lacks the flavor and health benefits of actual, real dark chocolate. Because imitation chocolate melts above body temperature, it doesn’t even melt in your mouth! And the vegetable fat in imitation chocolate can actually raise bad cholesterol levels.

The REAL Dark Chocolate that envelops each NuGo bar surges with luscious, melt-in-your-mouth flavor and just the right amount of sweetness. Made straight from the cocoa butter and non-fat cocoa solids found in cocoa beans, our dark chocolate is as honest as it is delicious. Real dark chocolate is also full of antioxidants, and has real health benefits, like helping to maintain good cholesterol levels.

The background of the entire advertisement is a light blue color. Scattered around the central text and banner are various Rude Health products, including cartons of almond, coconut, and cashew drinks; boxes of muesli, porridge, and granola; and a box of multigrain crackers. Each product features the brand's signature graphic of a mouth with a red tongue and white teeth.

RUDE HEALTH

Eat right, stay brilliant.

At Rude Health we only use the kind of ingredients you'd have in your own kitchen. We source our ingredients from fields, orchards and vines – not laboratories. We think food should be made out of food – not thickeners, preservatives, colourings, flavourings and other additives. When you've got food this good inside you, you'll be up for anything.
